

FOOD SERVICE SANITISER

Food Service Sanitiser is a broad spectrum sanitiser designed for food service areas and in food manufacturing plants.

Food Service Sanitiser controls 99.99% of bacteria such as staphylococcus, Escherichia Coli and Salmonella. Food Service sanitiser has no perfume and is approved for use in food manufacturing facilities and is also ideal in cafés and restaurants for sanitising counter tops, tables and food preparation areas.

FEATURES & BENEFITS

-  High performance – kills gram positive and gram negative bacteria
-  Fragrance Free Food Industry Approved
-  Concentrated formula for economical use
-  Rinse Free formula

DIRECTIONS FOR USE

Safe for use with Food Contact Surfaces, please ensure surfaces are free from heavy soiling otherwise clean with a detergent prior to use.

Dilute 100mls per 1L with water and place in bucket, spray bottle or suitably labelled container.

Thoroughly cover / wet down the item with diluted Food Service Sanitiser solution and wipe over all hard surfaces and allowing the product to naturally dry.

Discard the use of the sanitiser at the end of each day as a fresh batch should be made when using.

Special attention may be required for hard to get to areas therefore a sanitation bath may be required in some cases to ensure saturation.

Allow to air dry or use a single use towel only to dry surfaces.

FIRST AID & SAFETY

Considered a hazardous product as product will irritate the eyes. Avoid long term contact when undiluted with the skin. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flush with water for a minimum of 15 minutes. Call a Doctor.
