

HEAVY DUTY SANITISER

Heavy Duty Sanitiser is a high performance alkaline cleaner specifically designed for cleaning mould and mildew from various surfaces.

Heavy Duty Sanitiser contains a high performance germicidal agent designed to kill various positive and negative gram bacteria including mould and mildew and other bacteria associated with areas such as wet areas and food manufacturing/preparation areas. Heavy Duty Sanitiser can be effective in removing bacteria and grime from surfaces such as tiles and grout in showers and sanitising of food processing equipment and machinery. Heavy Duty Sanitiser offers a bleach and chlorine free solution to those difficult mould/bacteria problems.

FEATURES & BENEFITS

Contains no bleaches or chlorines

No overpowering scent

Effective mould killer

DIRECTIONS FOR USE

Recommended Dilution: Dilute 50mls per litre of water.

Apply and leave on surfaces for extended periods to allow mould to be killed at all spores. Rinse with fresh water prior to use. Do not leave on aluminium or painted surfaces for extended period as a discolouration may occur. Always test on a small area prior to use to ensure results are desired.

FIRST AID & SAFETY

Considered a hazardous product as highly alkaline. Avoid contact with skin and eyes. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor. Refer to Safety Data Sheet for more information.

Class 8

Risk: Corrosive
