

ISOPROPYL ALCOHOL

This product is a neutral sanitiser which is ideal on hard surfaces and equipment.

It may be used as a mild cleaner and disinfectant in food processing, hospitals and other areas that require rinse free sanitation of surfaces. Isopropyl Alcohol is 98% in concentration and has a fast evaporation rate. Isopropyl Alcohol is also a mild solvent and can be used for the removal of light oils in delicate applications and can be used for cleaning of sensitive electronic devices.

FEATURES & BENEFITS

Broad spectrum sanitiser

Non-injurious to skin

Mild cleaner and disinfectant

Provides rinse free sanitation

DIRECTIONS FOR USE

Recommended Dilution: Use undiluted.

Spray or wipe on and leave for 2 -3 minutes for effective disinfection.

Areas of heavy soiling should be first cleaned with an effective cleaner such as Nowchem Neutral Cleaner or detergent to remove contaminants.

Not to be used for any other purpose. Do not mix with other chemicals.

FIRST AID & SAFETY

Considered a hazardous product. Avoid contact with eyes and do not use around ignition sources and naked flames. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If poisoning occurs contact a Doctor or the Poisons Information Centre. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor.
