

NEUTRASAN LF

Neutrasan LF is a low foam, pH neutral detergent cleaner with an inbuilt twin chain quat sanitiser to allow for the disinfection of hard surfaces.

Its pH neutral properties allow a gentle clean, so you can remove dirt and grime without damaging precious surfaces. Neutrasan LF can also be used as a 'spray n wipe' for bench and general kitchen cleaning. The low foaming nature of Neutrasan LF is ideal for cleaning and maintaining conveyor belt surfaces and food contact surfaces in preparation and manufacturing areas and does not contain any perfumes to reduce irritation and tainting in food areas.

FEATURES & BENEFITS

Suitable in food manufacturing environments

Concentrated formula for economical use

Fragrance free

Streak free cleaning

DIRECTIONS FOR USE

Recommended Dilution: 50mls per 1L in warm water.

Spray on or mop surfaces apply thoroughly and allow 5 mins contact, rinse with fresh water once completed. May be diluted 100mls per 1L if a stronger solution is required.

For conveyor belts dilute 20mls per 1L with water and allow contact with belt or belt cleaning system, For CIP systems on belts product may be used stronger to provide better cleaning as long as there is a rinse function of the system.

For kitchen surface cleaning dilute 50mls per 1L for spray and wipe application.

FIRST AID & SAFETY

Considered a hazardous product as is an eye irritant. Avoid contact with eyes and long term exposure on skin. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed seek medical advice. If swallowed do NOT induce vomiting, give water. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flush with water for a minimum of 15 minutes. Call a Doctor. Refer to Safety Data Sheet for more information.
