

RINSE AID

Rinse Aid is a highly concentrated drying agent especially formulated to aid in the drying of crockery, glasses and cutlery in automatic dishwashing units.

Rinse Aid contains an anti-crazing agent to help keep your glasses from clouding and to keep your cutlery sparkling, saving time on polishing. Rinse aid improves drying time and allows for greater speed of service in commercial kitchens.

FEATURES & BENEFITS

Concentrated formula for economical use

Streak Free results

Reduced drying times

Promotes better results – less time polishing

DIRECTIONS FOR USE

For best results use in- conjunction with an automatic dispenser. If the machine is not equipped with a unit the product may be added to rinse tank or Rinse Aid Reservoir.

Ensure that the wash tank is emptied and cleaned at the end of each shift.
